The following is an examiner's statement of reasons for allowance: Applicants in their last response have narrowed the claims in specifying that the solvent used in both steps of the instant 2 step continuous process is glyme.

They have pointed out the unexpected benefits of using glyme as solvent for both steps. They have also pointed out that Maryanoff et al does not disclose or specifically suggest use of glyme for either step. Thus the instant claims are considered to be unobvious over Maryanoff et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
